

## With water shortages plaguing the world, water scarcity has become one of the largest threats facing society today.

Governments have begun to develop new products and technologies to mitigate its effects on the world. Such projects and technologies include rainwater harvesting, water location transfers, desalination, and wastewater treatment

A sewage treatment plant creates an environment where bacteria is encouraged to grow and breakdown sewage in a non-polluting method. Nearly all sewage to produce clean water.

## About White Park Bay Hostel

Located in a picturesque setting located on the Antrim Coast must be seen to be believed. This hostel has truly spectacular views over the Atlantic Ocean. Its panoramic windows overlook a National Trust beach walking distance to what has become known as the eighth wonder of the world; the Giant's Causeway world heritage site.

Small businesses in rural areas such as the White Park Bay Hostel are not connected to mains drainage and need a safe, reliable alternative. Water is becoming more sacred around the globe, including the UK, with limited supply due to pollution, droughts, and increased water demand. A more efficient domestic sewage system is needed.

**Environmentally friendly**

**Simple & Easy Installation**

## DPS & KSB

### - A Powerful Combination -

As distributors of pumping and treatment products to the water, wastewater, agriculture and industrial sectors, DPS has been a supply partner to many companies for over thirty years.

Our supply agreements with global-best-in-class manufacturers allow us to offer premium level pumping, blended with mixing excellence and cutting-edge macerators with full factory backup.

Our pricing structure allows us to offer a full supply, installation and service solution for complete project delivery at no commercial disadvantage to you, our customer, for total confidence and seamless support.

## Industry Expertise

- Sole distributors for a number of market leading pump brands
- Sole distributors for mechanical screening and sludge handling equipment
- Our experienced team has the ability to make the product meet your every need
